BRIEF INTRODUCTION

企业简介

宁波鑫亮机械有限公司位于浙江省宁波余姚市，是长江三角洲经济圈南翼环杭州湾地区上海、杭州、宁波三大都市经济金三角的中心，区位和交通优势十分明显。

宁波鑫亮机械有限公司专业从事聚氨酯发泡设备研发、制造及技术服务的专业型高科技企业，拥有十多年专业设计经验的研发人员，熟悉国内外聚氨酯发泡设备先进技术。

公司依托浙江雄厚的工业基础和良好的区位优势，走“科技创新，追求专业化”的发展之路，专注于为聚氨酯行业用户提供量身定制的最优化解决方案。

我们始终以满足顾客需求为中心，以技术，品牌，服务为核心，根据不同用户的生产规模和需求，我们可提供由简单到复杂，由适用小规模生产的经济实用的单机及固定式加工设备，到满足高效率、大批量生产的高度自动化的成套聚氨酯设备。

我厂的主要产品包括，各类聚氨酯高压发泡机、中间罐、龙门架发泡生产线、转盘发泡生产线、保温建材发泡生产线及，并长期提供国产及进口各类高压发泡机零部件供应等，相关产品已广泛应用于冰箱、冷柜、消毒柜、电热水器、制冰机、空调、太阳能、车库门、防盗门、玩具、工程屋面墙体隔音、保温、屋顶隔热、防寒、管道、汽车内外饰件、保温建材、家具、工艺品及运动器材等。还提供系列环戊烷，进行无氟替代设备改造升级，同时长期免费为用户提供前期项目规划，技术咨询及技术服务。

鑫亮机械始终坚持“以人为本，用户至上，诚信经营，合作双赢”的经营理念，铭记“求实创新，拼搏进取”的企业精神，致力于为广大用户提供优质的产品和一流的售后服务。鑫亮机械生产的高压发泡机远销于国外市场于西班牙，澳大利亚，埃及，摩洛哥，整个国内都有鑫亮机械提供的设备。

办公室 Office

Ningbo Xin Liang Machinery Co., Ltd. is located in Yuyao ningbo City, Zhejiang Province, is the center of the southern wing of the Yangtze River Delta economic circle around Hangzhou Bay to Shanghai, Hangzhou, Ningbo, three metropolitan economy in the Golden Triangle, location and transportation advantages are clear.

Ningbo Xin Liang Machinery Co., Ltd. specializes in polyurethane foam equipment research and development, high-tech enterprise specializing in manufacturing and technical services, has 10 years of professional experience in the design of R & D personnel, familiar with the domestic and foreign advanced technology of polyurethane foam equipment. The company relies on a strong industrial base in Zhejiang and good geographical advantage and take the "scientific and technological innovation, the pursuit of professional" development path, focused on providing tailored solutions for optimizing the polyurethane industry users.

We have always to meet customer demand as the center, technology, brand, serve as the core, depending on the user's production scale and needs, we can provide from simple to complex, from small-scale production of suitable economical and practical stand-alone and stationary processing equipment, to meet the high efficiency, highly automated mass production of complete sets of polyurethane equipment.

I plant's main products include various types of high-pressure polyurethane foam machine, intermediate tanks, gantry foam production line, dial foam production lines, production lines and foam insulation materials, and provide long-term domestic and imported all kinds of high pressure foaming machine parts supply and other related products have been widely used in refrigerators, freezers, disinfection cabinet, electric water heaters, ice machines, air conditioning, solar energy, garage doors, security doors, toys, engineering roof wall insulation, insulation, roof insulation, cold, pipeline, automotive interior and exterior parts, insulation materials, furniture, crafts and sports equipment. Also provides a series of cyclopentane, conducted freon replacement equipment upgrading, while long-term free to provide users with pre-project planning, technical advice and technical services.

Xin Liang machinery always adhere to the "people-oriented, customer first, integrity management, cooperation and win-win" business philosophy, bearing in mind the "innovation, hard work ahead," the entrepreneurial spirit, commitment to provide customers with quality products and quality service. Xin Liang mechanical production of high pressure foaming machine exported to foreign markets in Spain, Australia, Egypt, Morocco, the whole country has provided Xin Liang equipment and machinery.

ADVANCED PRODUCTION FLOWS

SALES NETWORK

销售网络

鑫亮机械长期潜心于营销网络的建设。如今，精耕细作的营销网络已遍布全国所有省、市。长期稳定的合作和可持续发展的共同目标，使得营销网络具有极强的凝聚力和稳定性；完善的售中和售后服务也使营销网络的竞争力持续提升。

Xinliang machinery has been focusing on the construction of marketing network for a long time. Today, the intensive marketing network has spread throughout all provinces and cities across the country. Long-term stable cooperation and sustainable common development make marketing network have strong cohesion and stability. Perfect sales and after-sales service also make the competitiveness of marketing network continuously improved.

详细介绍 DETAILS INTRODUCTION

HB-20/40/100/200/300/400系列发泡机是我厂最新一代二组分高压发泡机,它采用模块化设计方式,根据顾客的具体需求而搭建成具有最优性价比的机器,适用范围极为广泛。机器广泛适用于方向盘、汽车坐垫等汽车内饰件、冰箱保温层、保温建材等所有聚氨酯发泡产品。

HB-20/40/100/200/300/400 series high pressure foaming machine is the latest generation of two-component factory high pressure foaming machine in our factory. It has a modular design, based on the customers specific needs and take into the optimal price/performance of the machine, Has wide scope. Machines are widely used in the steering wheel, car seat and other car interior parts, refrigerator insulation, polyurethane foam insulation materials and all other products.

环戊烷系列高压发泡机

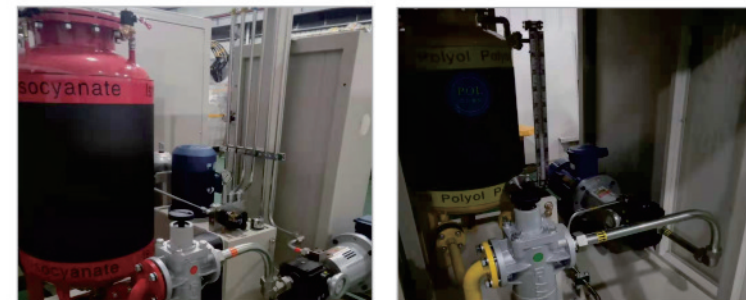

CYCLOPENTANE SERIES HIGH PRESSURE FOAMING MACHINE

HA单系统环戊烷高压发泡机

产品名称:HA单系统环戊烷高压发泡机

PRODUCT NAME: HA SINGLE SYSTEM CYCLOPENTANE HIGH PRESSURE FOAMING MACHINE

详细介绍 DETAILS INTRODUCTION

HA-20/40/100/200/300/400系列环戊烷高压发泡机广泛应用于家电冰箱、冷柜、热水器、消毒柜绝热层、空调夹心板的无氟发泡，真正适合该行业以及冰箱出口国外市场的环保要求。

HA - 20/40/100/200/300/400 series cyclopentane high pressure foaming machine is widely used in household appliances refrigerators, freezers, water heaters, disinfection cabinet, thermal barrier, air conditioner cfc-free foam sandwich panels, really suitable for the industry and environmental requirements of the refrigerator export markets abroad.

环戊烷系列高压发泡机

CYCLOPENTANE SERIES HIGH PRESSURE FOAMING MACHINE

HA双系统环戊烷高压发泡机带轨道

产品名称:HA双系统环戊烷高压发泡机

PRODUCT NAME: HA DUAL SYSTEM CYCLOPENTANE HIGH PRESSURE FOAMING MACHINE

详细介绍 DETAILS INTRODUCTION

HA-20/40/100/200/300/400环戊烷双系统高压发泡机,两把混合头同时工作,互不干涉,高压发泡机广泛应用于家电冰箱、冷柜、热水器、消毒柜绝热层、空调夹心板的无氟发泡,真正适合该行业以及冰箱出口国外市场的环保要求。

HA-20/40/100/200/300/400 cyclopentane dual system high pressure foaming machine, two mixing heads simultaneously, mutual non-interference, high-pressure foaming machine is widely used in home appliances refrigerators, freezers, water heaters, disinfection cabinet insulation, CFC-free air conditioning foam sandwich panels, really suitable for the industry as well as export markets abroad refrigerator environmental requirements.

100L优质碳钢油箱，隔离双油箱设计
10L预充氮蓄能器溢流阀，安全阀，手动泄压阀压力变送器
100L tank, separate design and fillet inside. 4L accumulator, 100Bar Nitrogen Pre-Charged Pressure relieve valve, manual release

板式换热器,冷却效果更佳。
Plate heat exchanger, the cooling effect is better.

所有高压发泡机都采用10寸大触摸屏，原料温度压力料位显示直观，
All high pressure foaming machine use the 10 inch touch screen, Raw material temperature and pressure level display intuitive

所有高压发泡机都采用变频器控制，省电在30%以上
All high pressure foaming machine adopts frequency converter control, save electricity above 30%

客户案例 Customer case

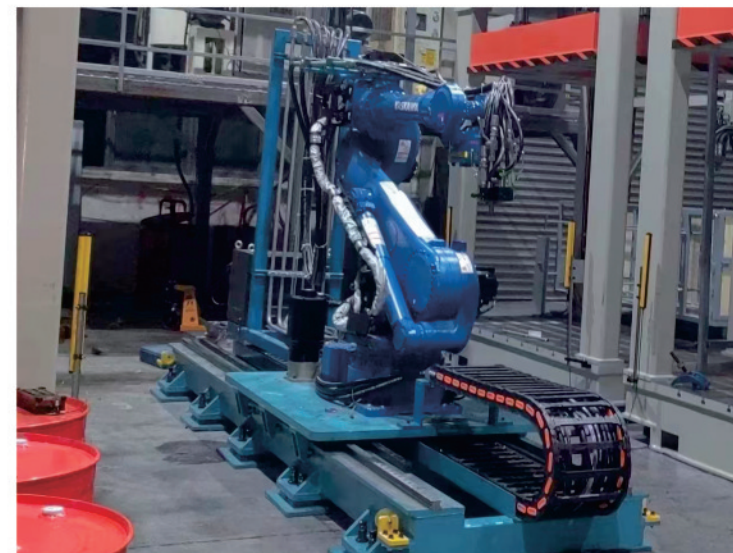

直线式自动发泡线 Linear automatic foaming line

该发泡线由预热烘炉、动力滚筒线、进箱90°转相机（含箱体识别）、双向运载系统（可含自动充氮装置）、发泡夹具、自动充注系统、出箱顶升平移机、外膜外加热系统以及配套气动系统、电控系统等部分组成。

The foaming line by the preheat oven, dynamic drum line, into the box 90. Turn the camera (including body recognition) and bidirectional delivery systems (including automatic nitrogen inflator device), Foaming clamp, automatic filling system, outside the box top dressing switching, outer membrane heating system and pneumatic system and electric control system and other parts.

该发泡线采用直线式布局，夹具外模采用模温机循环水加热。夹具具有自动堵泡和自动抽心功能，换模采用气缸或人工驱动连杆机构，有人工控制和电气控制双重自锁功能。适用于不同长、宽、高的箱体生产。生产线具有外形美观大方、结构经凑、环境污染少、劳动强度小、占地面积小、功能强、生产效率高、多品种柔性生产等特点。

The foaming line adopts linear layout, jig mold used mold temperature machine circulating water heating. Fixture with automatic blocking and automatic pumping heart function, adopt cylinder or changing of the mold Artificial driving linkage with manual control and electric control dual self-locking function. Is suitable for the production of boxes of different length, width and height. Production line with beauty of appearance View, by the pool structure, less environmental pollution, labor intensity is small, cover an area of an area small, strong function, high efficiency, many kinds of flexible production, etc.
